Passionate Full Stack Developer with 2.6+ years of experience delivering scalable web solutions. Proficient in building collaborative and innovative applications for global clients. Seeking a remote opportunity to leverage expertise in MERN, MEAN and database management to drive impactful solutions for businesses worldwide.

## SKILLS & EXPERTISE

**Frontend:** JavaScript, TypeScript, React.js, Angular, Redux, HTML5, CSS3, Tailwind, Bootstrap, MUI

**Backend:** Node.js, Express.js, Nest.js, WebSockets

**Database:** MongoDB, MySQL, PostgreSQL, Sequelize, Prisma, TypeORM

**DevOps & Cloud:** AWS (S3, EC2), Docker, GitHub Actions, GitLab CI/CD (beginner)

**Testing:** ESLint, Prettier

**Version Control:** Git, GitLab Security: JWT, OAuth2, OWASP Best Practices

**Project Management:** Jira

## EXPERIENCE

**Full Stack Developer**

*Springup Labs Pvt ltd. Baner, Pune*                              *Dec 2022 - Present*

➢ **Working for Blue Ocean Steel (BOS )**
- BOS is a steel material e-commerce platform where suppliers sell steel, and customers can purchase materials. The platform also incorporates inventory management functionalities.
- Led the frontend development, designing the project architecture and building reusable components for a scalable application.
- Contributed to backend development by handling data modeling, creating APIs, and integrating third-party services to enhance platform functionality.
- **Technology**- React, MUI, React Native, Node.js, Sequelize, MySQL.

➢ **Working for Window Seat (Audio Content platform Project - for kids)**
- Engineered an audio content management platform akin to a kid-friendly music player, offering stories, podcasts & devotionals for children to enjoy.
- Spearheaded backend API development & authentication processes, ensuring secure access & seamless operation of platform features.

- Led the development of an authentication web app & implemented responsive UI designs to enhance user accessibility & interaction across devices. Additionally, contributed to mobile application development using React-Native.
- **Technology**- React, React-Native, MUI, Nestjs, Typeorm, MariaDB

- ➢ **Working for Heinekingmedia Gmbh (Whiteboard - School Modal Project)**
- Whiteboard is a canvas-based application utilized for collaborative teaching in educational institutions, serving as a crucial tool for both web & android devices.
- Specialized in canvas operations & collaboration functionalities, leading the implementation of real-time whiteboard collaboration features.
- Responsible for UI development, API integration, ensuring smooth communication between frontend & backend systems to enhance user interaction & functionality.
- **Technology**- Angular, Angular Material, Fabricjs, Node, express, socket.io, Mysql

**Full Stack Developer (Intern)**

*Edureka, Bengaluru*                                                        *Jan 2022 – Aug 2022*

- Participated in a full stack developer internship at Edureka, contributing to various projects & gaining hands-on experience in web development.
- Assisted in the development of user-friendly interfaces, API integration, & database management tasks, gaining exposure to industry-standard.
- Applied technical skills & learned new technologies such as HTML5, CSS, JavaScript, Bootstrap, React, Nodejs, express, MongoDB, GitHub.

## ACHIVEMENTS
